## Summary

A passionate and driven individual with a strong foundation in computer science and hands-on experience in web development and software engineering. I am eager to contribute to innovative projects and collaborate with teams to solve complex problems. My goal is to leverage my technical expertise and creativity to deliver impactful solutions while continuously growing as a professional.

## Projects

### Portfolio Website
Personal•August2024
- Designed and built a personal portfolio website showcasing projects and skills.
- Implemented a responsive UI using modern web technologies.
- Hosted it on GitHub Pages for easy accessibility.

### CGPA Calculator
Academic•July2024
- Developed a web-based CGPA calculator to help students track academic performance.
- Implemented a user-friendly interface with real-time calculations.
- Deployed the application for seamless access.

### Career Co - Career Guidance Website
Personal•June2023
- Built a web platform to provide career guidance and resources for students.
- Integrated career assessment tools and job-related resources.
- Ensured a smooth user experience with optimized UI/UX design.
